GAINESVILLE, FLORIDA, SUNDAY, AUGUST 29, 1909

TEN CENTS A WEEK

ONE MAN'S CARELESSNESS SENDS TWELVE TO DEATH

Explosion of Giant Blast of Dynamite on Key West Extension Plays Awful Havoc.

KEW WEST, Fla., Aug. 28.—As a result of the explosion at noon yesterday of 700 pounds of dynamite at Boca Chica, twelve miles from Key West, on the Florida East Coast railway, twelve men are dead, five probably fatally injured and at least a dozen others are less seriously hurt.

The explosion was caused by a member of the railroad construction force carelessly throwing a lighted cigarette into a box of fuses.

Most of the workmen met instant death. The men were hurled high into the air and the bodies of the dead were almost beyond recognition, arms and legs being torn from the bodies of some while the faces of others were unrecognizable masses of flesh.

Standing Over Death.

When the explosion occurred the workmen were standing in water four feet deep and directly beneath them was the 700 pounds of dynamite ready for the blast, when the men should stop work for dinner.

According to one of the workmen, a workman—one of the nine to meet instant death—threw a lighted cigarette to one side, not noticing that it fell into the box containing the fuses which were connected with the heavy charges of explosives below them. A few seconds later the men, water, mud and tons of dirt were thrown 70 to 90 feet in the air.

Tugs at once brought the dead and the more seriously wounded to this

city, the latter being placed in the Louise Maloney Hospital.

Those less seriously injured were placed on Stock Island, opposite Boca Chica, and will be brought to Key West later.

List of the Dead.

Most of the victims of the explosion arrived here from New York last Sunday.

The dead are: J. Kelley, G. Surkey, J. Brennan, T. Convery, J. Gallagher, T. Linnehan, J. Garrity, T. Travis, J. Hohor, T. Doran; two unidentified.

Probably fatally injured are: James Gallagher, aged 40, Brooklyn, N. Y.; Timothy McDonald, aged 54, Black-sack, Cork, Ireland; E. Hannon, assistant foreman, aged 33, 140 Grand street, Brooklyn, N. Y.; James McMahon, aged 45, 54 Fulton street, New York; James Sands, New York City.

Late yesterday afternoon six additional of the more seriously injured were brought to the hospital here. Their injuries are not considered fatal. They are: Pat Sullivan, Greenstick, John Mullin, Patrick Giff, Peter Bryan and Meekly Foley.

Fifty men were at work, all close together, when the box of fuses was discovered ablaze, and had it not been for the sounding of the alarm by the dredge Manteo it is doubtful if a third of the men would have escaped with their lives.

There is some contention as to the cause of the explosion. An inquest will be held.

SEA ISLAND COTTON.

The Florida Crop Accounts Continue to Be Unfavorable.

SAVANNAH, Ga., Aug. 28.—The market for Sea Islands was very dull with the small demand confined to the high grades. Quotations remain unchanged, but are mostly nominal, the market for the new season not having been as yet established.

From Florida crop accounts are less favorable again. Complaints of deterioration as a result of the excessive rains are very general, and many reports say the prospect has been cut well below last year. The few new bales being received are mostly green, damp and badly gin-cut, thus confirming the reports of weather damage. From Georgia accounts are better, although more or less spotted, some central southern counties reporting deterioration. Sales for the week 105 bales.

SAVED FROM SUICIDE.

MACON, Aug. 28.—As he swung himself from Spring street bridge across the Ocmulgee river last night, Fernando Deal of 313 Telfair street, was saved from a watery grave by Bicycle Officer Rodgers, who sighted the man as he prepared to make the plunge with the intention of suicide.

Deal had penned a pathetic note to his wife in which he declared that death was to be chosen rather than a life of inability to support her and their children as he would like.

INJURED BY A TOY CANNON.

TAMPA, Aug. 28.—James Schell, the son of Mr. and Mrs. L. B. Schell, was badly injured Thursday while playing with a toy cannon found near his parents' home on East Park avenue. The boy, who is only six years old, was overhauling the little gun, when it was discharged, badly burning the front of his left leg near the ankle, inflicting a wound which necessitated the calling in of a physician.

ATLANTA GOES BROKE.

ATLANTA, Aug. 28.—Atlanta's treasury is in about the same fix as that of the State, or worse. The city went broke yesterday, with no funds in sight, and will have to exercise its borrowing privilege to tide over. The city today will borrow \$100,000 until it can collect some taxes to enable it to pay the firemen, policemen and other employees. Atlanta pays 4 per cent interest on her loans.

BOY KILLS HIS BABY SISTER.

BRISTOL, Va., Aug. 28.—A special from Russell county, Virginia, says that the three-year-old daughter of J. M. Price, a well-known citizen of that county, is dead as a result of having been shot through the heart by her brother, aged 5.

The child ran across a pistol, and pulling the trigger, the ball struck his sister, producing almost instant death.

Mr. Fennell Returns.

The many friends of L. W. Fennell will be pleased to learn that he has sufficiently recovered to return to his home at Hawthorn after an absence of a few weeks at Valdosta, Ga., where he went for treatment. He states that Senator Baker of Clay county is there, having undergone two operations, and is steadily improving under the care of Dr. Holmes. Mr. Fennell is greatly improved and hopes soon to be able to get around and see his friends.

CONVICT KILLS PURSUER BUT IS SHOT TO DEATH

Armed With Shotgun, Rifle and Pistol, Escaped Negro Fights Desperate Battle for Liberty.

SOPERTON, Ga., Aug. 28.—Two negroes lynched and a posse in pursuit of the wife of one of the victims; the killing of a prominent planter, a member of the posse; the probable fatal injury of the sheriff of Montgomery county and the wounding of four other members of the posse, summarizes the result of one of the most exciting man hunts this section has ever known.

Ben Clark, an escaped convict from the Bibb county chain gang, was shot to death after a fierce battle early yesterday and his body burned. The negro threatened to kill Nicholas Adams, a merchant of Kibbee, "and a hundred others."

John Sweeney, who harbored the convict, was taken from a passenger train a mile from Tarrytown and lynched.

The posse then set out in search of Sweeney's wife, who it is said, was in the neighborhood. Intense excitement prevails throughout this section.

James Durden, a prominent planter and member of the posse which captured Clark, was shot and instantly killed. The other members of the posse who were shot by Clark were:

Sheriff James Lester, Walter Simmons and three others unknown. The officer received an ugly wound in the breast.

The posse found Clark in Sweeney's house. Sweeney's wife was at home, but Sweeney was absent. The sheriff called on Clark to surrender. For answer he received a 44-caliber bullet fired from a rapid fire gun. Durden was shot and other members of the posse fell before the torrent of lead dealt by the negro. He continued to fire until his ammunition was exhausted. He was then overpowered and his body riddled with bullets. He wore a steel breastplate that turned Winchester bullets. A pile of logs was covered with crude turpentine and the body cremated, and in the excitement the woman escaped. The events of the day fired the intense spirit of the posse and it is expected that she cannot escape the search that is being instituted.

Sweeney was caught near here. He was carried aboard a northbound train to a secluded wood near Tarrytown, where his body was riddled with bullets after being swung up to a sapling.

Five Lose Lives When Steamer Goes to Bottom

SEATTLE, Wash., Aug. 28.—Five lives were lost in the sinking of the Alaska Steamship Company's steamer Ohio off Steep Point, Alaska, early yesterday. There were 128 passengers on board, but all these escaped, the victims being employees. The loss of the steamer and the cargo is total.

The drowned are: Purser F. J. Stephen of Seattle, Wireless Operator George E. Eccles of Winnipeg, two seamen and the quartermaster; the names are not given.

The wireless dispatch says the Ohio sank in three minutes. This probably means she was on a reef a considerable time, and that the passen-

gers were all off before the ship slid into the deep water, which she did so speedily as to carry down five of the crew.

Some of the passengers were taken ashore in lifeboats and taken by the fishing boat King Fisher to Swanson bay. Others were taken on the Humboldt, and the Rupert City. The Humboldt's rescued passengers will be landed at Ketchikan, while the Rupert City is taking her passengers to Vancouver.

The Ohio was insured for \$220,000. Capt John Johnson, her navigator, was regarded as one of the most skillful on the Pacific Coast.

Four Hundred Joneses in Reunion at Atlanta

ATLANTA, Ga., Aug. 28.—The fifth annual reunion of the Jones family was held yesterday in Grant's Park. There was no ceremony but they all assembled early in the morning and had a good time and at 1 o'clock a sumptuous dinner was spread.

There were about 400 members present and four States, Ohio, Alabama, Georgia and Florida, were represented. There were four generations present, the oldest being J. J. Jones of Atlanta, aged 79, and the youngest was Miss Nannie Horace Jones of Montgomery, Ala., aged one.

The next reunion will probably be held at Jones' Chapel, Forrest Park.

Wife Used an Umbrella On Another Woman's Head

ATHENS, Ga., Aug. 28.—Yesterday afternoon Mayor Dorsey dismissed the case against Mrs. Sallie Hamilton, who was charged with having beaten Mrs. Alice Dale over the head with an umbrella.

Mrs. Hamilton struck Mrs. Dale

when she found her in the office of the former's husband, Dr. W. T. Hamilton. Dr. Hamilton, who was served with notice to appear as a witness and failed to do so, was fined \$100 for contempt. Mrs. Dale also failed to put in her appearance and was fined a similar amount.

Reorganization of Florida State Fair Association

TAMPA, Aug. 28.—There was a reorganization of the Florida State Mid-winter Fair Association Thursday, when the stockholders selected as directors Messrs. James E. Crane, J. H. Drew, F. X. Hackman, J. U. Strode, B. S. Catlett, Judge Charles Godshaw, W. H. Fizer and D. B. McKay.

The board of directors held a meeting immediately after the stockholders' meeting and elected the following officers: James E. Crane, president; John H. Drew, vice-president; F. X. Hackman, secretary; W. H. Fizer, treasurer and racing secretary, and J. U. Strode, general manager.

The gentlemen who are interested in the association are energetically preparing for a hundred-day race meeting, in which it is said nearly a

thousand horses will participate. Many of the same horses which have run at Sheephead Bay and Saratoga will appear at the Tampa track. Applications are already coming in for stable room and the first shipment of fast flyers will arrive here about the middle of November.

It is said that Messrs. Strode and Fizer have horses booked for the meeting which will give Tampa racing events the coming winter, comprising as interesting a series as ever occurred on a Southern course.

A large force of men are about to prepare the large tract of ground recently secured near West Tampa for the association, for its race track and other amusement features, and it is proposed to have them in readiness for the meeting to begin early in 1910.

Morse Starts Battle to Rehabilitate His Fortune

NEW YORK, Aug. 28.—That Charles W. Morse, the financier who recently was released from the Tombs prison under \$150,000 bail, has begun his efforts to rehabilitate his fallen fortunes, was indicated yesterday by the announcement that he has purchased a majority of the claims outstanding against the Metropolitan Steamship Company, and will attend a sale of the property of that company which takes place in about a month.

It is proposed to reorganize the Met-

ropolitan line by the formation of a new company with a capital of \$6,000,000, consisting of equal portions of stock and bonds, and in addition an issue of \$500,000 of notes.

The Metropolitan line is one of the six steamship companies included in the Morse \$120,000,000 steamship consolidation, which was broken up into its constituent companies in 1907. It operates the turbine passenger steamers Yale and Harvard and freight steamers between New York and Boston.

BRIGHT PROSPECTS FOR UNIVERSITY OF FLORIDA

NEW ADMINISTRATION IS NOW
THOROUGHLY ORGANIZED.

And Coming Session, Is Expected to
Prove Most Successful in
Institution's History.

Under the wise and conservative but progressive administration of Dr. Murphree, the new president, the University has taken on new life and energy, the evidence of which is to be found on the campus and in every department of the University, which bids fair to assume the position and continue the work designed for it by its founders.

Law Department.

The books for the law library, purchased from the Lawyer's Co-Operative Publishing Co., through its popular representative, H. C. Utley of Jacksonville, Florida, are arriving and are being placed on the shelves for use at the opening of the University, September 29th. When all books are in place the library will contain the Florida Reports, United States Supreme Court Reports, American Decisions, Reports and State Reports, the Lawyers' Reports Annotated, New York Common Law and Chancery Reports, New York Court of Appeals Reports, Massachusetts Reports, Michigan Reports and New Jersey Equity Reports to the National Reporter, North Western, North Eastern, South Western, South Eastern, Atlantic, Pacific and Southern Reporter, the Reprint of the English Reports, the Cyclopaedia of Law and Procedure, and nearly three hundred or more of the leading text books and books of reference, making in all a library of more than two thousand volumes.

With such a library and with a faculty composed of men who have demonstrated their fitness by years of successful law school work in Florida, and including three of the leading members of the Gainesville bar in charge of legal ethics, Florida pleading and practice, Florida statutes and practice court work, the law school should command the confidence and support of the bench and bar of the State and should bring within its walls every young man desiring to thoroughly prepare himself to practice law in Florida. The prospects for the law school for the coming year are indeed bright, for there promises to be not only a large junior class to enter the school but a strong senior class as well, an unusual condition for a law school in its opening year.

Mechanical Engineering.

Professor Chas. H. Kicklighter succeeds Prof. M. T. Hochstrasser (resigned) as Professor of Mechanical Engineering. Professor Kicklighter is a graduate of the Georgia School of Technology and a post-graduate of the University of Wisconsin. For three years he was instructor of mechanical and electrical engineering in the Georgia School of Technology. Later he organized the Carnegie School of Technology of Newberry College, S. C., from which institution he comes to us. The president of Newberry College speaks of Mr. Kicklighter as follows: "For two years he has commanded the highest respect of teachers and students of Newberry College and has shown himself a good teacher and disciplinarian. We are exceedingly reluctant to part with him."

Department of Pedagogy—Normal School.

Dr. John A. Thackston succeeds Dr. W. F. Yocum (resigned) as Professor of Philosophy and Pedagogy and Director of the Normal School of the University. State Superintendent Martin of South Carolina writes that "Dr. Thackston is one of the most able men in South Carolina. He has made his influence felt throughout the country and in our teachers' meetings." President Maxwell of the State Normal School, Minnesota, writes that "Dr. Thackston is a well informed man in the field of education, and his wide experience, both North and South, seem to me to fit him admirably for the work in your State University." Dean Haines of New York University speaks as follows: "Mr. Thackston is one of the best qualified students we have ever had in the department of education, and is a thoroughly well-equipped man. He has no other man in the department who

we could recommend quite so strongly for your work." Dr. Thackston has also just completed a book on the purpose and method of teaching mathematics in an elementary school. In Dr. Thackston the Department of Pedagogy of the State University will have an able educator as a trainer of teachers for the public schools of Florida.

By the law of the State, provision must be made for the professional instruction of teachers. The University makes this provision, (1), by offering a four-year college course leading to the degree of B. A. in Pedagogy; (2), by offering a three-year course for the preparation of teachers for State certificates; (3), by offering a course preparing teachers for first-grade county certificates; (4), by offering a review course for making up deficiencies in special subjects; (5), by offering assistance in correspondence course as part of the University Extension work. The University intends to put more stress on the training of teachers in the future than it has done in the past and the young men of this State will find just the advantages here to meet their respective needs. Teachers taking the course at the State University will be recommended to positions which they are qualified to fill and the president will render any assistance he can to county superintendents and school boards in securing principals and teachers.

Other Departments.

The work in the agricultural courses, in the various branches of engineering, and in the classical and literary work offered will be conducted by men of great skill and superior education.

The outlook for the next session is exceedingly propitious. Already nearly all of the rooms in Buckman Hall, the University dormitory, have been engaged for another year. The extensive improvements in this dormitory building, and the two new buildings which are to be erected on the University campus within the next few months at a cost of \$40,000 each, together with other improvements on the campus, and the establishment of the law school, combine to render Florida's leading institution of higher education the pride of every citizen of the commonwealth.

In this University almost every advantage that can be found in the very best educational institutions in the South is offered to the young men of the State at the actual cost of living, and it is hoped that the press of the State will assist in making known this fact to our people. Only by this means will the youth of our State be encouraged to patronize our home institution in preference to institutions of other States, where expenses are greater while advantages in many of them are inferior.

If its worth more to someone else than to you, no matter what it is, a paid ad. will be a good investment.

SOUTH SIDE WAS OUT OF BUSINESS AWHILE

SUN OFFICE'S NEW MOTOR DARK-
ENS PLACES OF BUSINESS.

Was Too Strong for the Transformer
and Places in Darkness for
Twenty Minutes.

A great commotion was created on the south side of the square Saturday night at 7 o'clock when The Sun office's new motor was turned on for the evening's run.

During the past week a new motor with additional power had to be installed for the one formerly in use to be repaired, and Saturday evening was the first time that the entire current was being used, with all the stores on the circuit lighted and the office machinery running, so when the motor was thrown on it burned out the fuse on the south-side transformer and put everything in darkness.

Just at this time the restaurant of Nic Francisco was serving a number of meals, while in the barbershop a few doors down the street all chairs were full and a barber is said to have cut one man, so sudden did the darkness appear. The stores were all filled with customers and excitement prevailed for a while, until the trouble was located.

By rapid work the electrician soon had the lights restored, but as soon as the motor was again turned on the lights went out for the second time, and it was necessary to place a larger wire to the affected point before a complete service was restored.

The affair afforded considerable amusement, while it also was a great inconvenience, especially at the particular hour when trading was at its height, but thanks to Manager Dols and his efficient electrician, the trouble was of brief duration.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

S.S.S. PURIFIES BAD BLOOD

Bad blood is responsible for most of our ailments, and when from any cause it becomes infected with impurities, humors or poisons, trouble in some form is sure to follow. Muddy, sallow complexions, eruptions, pimples, etc., show that the blood is infected with unhealthy humors which have changed it from a pure, fresh stream to a sour, acrid fluid, which forces out its impurities through the pores and glands of the skin. A very common evidence of bad blood is sores and ulcers, which break out on the flesh, often from a very insignificant bruise, or even scratch or abrasion. If the blood was healthy the place would heal at once; but being infected with impurities which are discharged into the wound, irritation and inflammation are set up, the fibres and tissues are broken, and the sore continues until the blood is purified of the cause. S. S. S. is Nature's blood-purifier and tonic, made entirely from roots, herbs and barks. It goes down into the circulation and removes every particle of impurity, humor or poison, restores lost vitality, and steadily tones up the entire system. S. S. S. neutralizes any excess of acid in the blood, making it pure, fresh and healthy, and permanently cures Eczema, Acne, Tetter, Salt Rheum, Boils, and all other skin eruption or disease. Book on the blood and any medical advice free.

GOLD DISCOVERY IS MADE NEAR CAMPVILLE

SEVERAL SPECIMENS TAKEN
FROM A FIFTEEN-FOOT WELL.

Now Being Analyzed to Ascertain and
Determine What Per Cent
Rock Contains.

While digging away in an old well in the eastern part of the county, near Campville, workmen discovered a vein of rock which resembles gold quartz.

The gentleman who brought the sample to Gainesville would not talk about the find further than to say that it was there, but in small quantities only, and he was unwilling to be mentioned in connection with it until a thorough analysis is made.

The samples he was showing around Gainesville resembled gold in a crude form in the shape of a kind of quartz sticking on the rock, and upon breaking it, it was seen to run all through the rock substance.

The Experiment Station at the University was furnished with a sample and will analyze it at once and give the information to the party now investigating the matter.

A great many things have been found under the soil in Florida and this may be a low grade of gold, or it may result in something else being found that is more valuable, for the man who is investigating the matter was very reticent about it and would give out very little information in regard to the find, or where it was located. In the event it does prove to be gold, and a great many believe that it is, he will at once make further investigations in regard to the quantity to be found on the place.

Reading notice: All columns 10 cents a line for first insertion; 5 cents for each additional insertion.

Notes for display advertising made known on application.

The Twice-a-Week Sun is an eight page, forty column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

No really successful man ever looked for a substitute for work.

You may find what you are looking for through a want ad. in The Sun.

Public buildings costing \$255,000 will be Gainesville's record for 1909. Who can beat it?

If Colombia succeeds in building a canal at a cost of \$100,000,000 we'll take our hats off to her.

Desirable houses for rental purposes will be at a premium in Gainesville the coming fall and winter.

Hiram W. Hill of Greenville, Ga., has been elected chairman of the Georgia Railroad Commission for two years by the unanimous vote of that body.

When a hurricane was predicted, residents of Mobile hurried to places of safety. Here is one community at least which still has faith in the weather bureau.

It seems that the big industries have entered into active competition with the farmer as to who has the prior right to fill those idle freight cars, remarks The Wall Street Journal.

Perry is to furnish an innovation in the baseball line. The Herald extends this invitation: "Come to Perry Saturday, September 4th, and see the Indians play ball, and also see the first night game of baseball ever played in the State of Florida."

The Pensacola Journal says: "Only one machine so far smashed at Rheims by the aviators, but what they have done to records has been remarkable. These aerial tests, strange as it may seem, appear to be fraught with far less danger to life than the automobile races on terra firma."

Whatever tends to lessen labor disturbances is worthy of approval. The plans of the American Federation of Labor for the scientific teaching of trades may not prove the complete remedy, but strikes like that at Pittsburgh might never occur if the education of the individual were equal to the task he has to perform.

Every citizen of Gainesville should strive to have his premises, including street and sidewalks, in apple-pie order before the opening of the winter season. We do not mean to infer that they should not be equally so in summer but many are away at this season and matters of this kind are never looked after carefully during one's absence. Clean up.

The Sun's Corn Contest promises to excite much interest among the farmers of Alachua, the best county in Florida, before its close on October 15th. On Saturday M. P. Hattiwanger, who resides on Rural Route No. 2, between Gainesville and La Crosse, brought to this office three ears of very fine and well-developed corn. Mr. Hattiwanger stated that the seed came from a Northern State, and that he has been raising this variety for the past two years. He says that two ears will weigh about a pound, which is considered a good yield.

WHAT THE PATRONS MAY DO.

Postmaster Lynch requests The Sun to reproduce the following suggestions from The Carrier and Patron in order for the people living on the rural free delivery routes from the Gainesville postoffice may more fully appreciate the service and work to the end of making it more beneficial to themselves as well as the general government:

"The Government expends nearly \$900 to maintain your rural route. This is all that is required of patrons to whom this service is given:

"The proper erection of an approved mail box; sufficient patronage to enable the carrier to count 3,000 pieces per month.

"You, the patron, can do some things that will vastly improve the route and cost you nothing.

"See that your box is erected breast high, measuring from the buggy track. This is the most convenient height for the carrier to serve.

"Let the box be kept in good condition, slightly and waterproof. Bad boxes are eyesores on a route. They are hard to serve.

"Use the lock as little as possible. Boxes are seldom molested, for Uncle Sam punishes severely those who molest mail boxes in any way. Time is an object with the carrier and the quicker he serves your box the better schedule he can maintain.

"Place a box in the mail box to hold pennies and save carrier time. A snuff box or potted meat box will do. This will be a great favor.

"When possible keep stamps on hand. Pennies are a nuisance. Have your letters stamped when the carrier arrives. Better still, buy stamped envelopes with the return card. They are cheaper, better and safer. No lost letters when you use return card stamped envelopes.

"Register important mail matter. Get money order applications from the carrier, keep a few on hand. Meet him with the application filled out when you send off money. Cost of order is printed on back of application.

"If there is a bad place in the road near your box, please take a little time and fix it. It will help a lot and your neighbors will see what you do and do it, too. Then we will all be helped—the carrier particularly. The better the road the better the service.

"The service must be built up and the patronage steadily increased. Do your part by subscribing to more good papers. The carrier will advise you as to how to order and where to get the best for the least money. He keeps advised and will be glad to assist you. Call on him.

"Yours for better service, better roads and happier homes."

The Palatka News is bitterly opposed to the legalized saloon in the Gem City, and will do all in its power to defeat the purpose of the whiskey interests should an election be called as a result of the petition now being circulated in Putnam county. Referring to the matter The News says: "The people of Palatka by their representatives, the city council, wanted bar rooms so very bad, that at a recent meeting of that body the annual city license tax on saloons was raised from \$250 to \$1,000. This, of course, would be in addition to the \$1,000 paid to the State and county. This ordinance was simply to provide for a possible contingency. At the present time saloons are prohibited, but as a well-known ex-saloon keeper is canvassing the county to secure signatures to a petition for a 'wet or dry' election, and as his stock argument in inducing signatures is to the effect that 'the people of Palatka want saloons,' this action of the council will tend to refute such argument. The same council made the license tax for dealers in toy pistols \$100. This also, it is presumed, was done to encourage the traffic in this 5-cent weapon."

The best place to buy your goods is at the store which invites you to come through an ad in The Sun.

Vagaries of a Cold.

You can never be quite sure where a cold is going to hit you. In the fall and winter it may settle in the bowels, producing severe pain. In the summer it may give you colic with diarrhoea or summer complaint. Do not be alarmed nor torment yourself with fears of appendicitis or inflammation of the bowels. At the first sign of the pain or cramp take Perry Davis' Painkiller in warm, sweetened water and relief will come at once. There is but one Painkiller, Perry Davis'. It is now put up in a large 16 oz size as well as the regular 8 oz size.

STATE PRESS COMMENT.

The Palatka Times-Herald says: "Claude L'Engle saved a youth from drowning out in West Florida the other day. And yet some few say that Claude possesses no 'saving qualities.'"

The Pensacola Journal says: "The 'practical' Mr. Harriman announces, no doubt with a wise nod of the head, that the fine crops will bring a renewal of prosperity; from which one infers he means to intimate that there was something the matter with the crops in 1907 when the panic started. Wish he would tell us about it; for we never knew there was anything much the matter with the crops that year. We had been led to believe that the panic was principally caused by a mix-up among the country's 'practical' speculators, politicians and others of that ilk and that if it had not been for the crops the people would have starved to death."

PHILOSOPHIC REFLECTIONS.

The acme of misery—a No. 9 foot in a No. 8 shoe.

Seasons may change in fashion for gentlemen, but never for the hobo.

Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition—it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

NEWS FROM ALL PARTS OF FLORIDA

Pensacola took the first game of the series from the Birmingham team Wednesday afternoon by the score of 1 to 0. It was witnessed by a large crowd which gathered at the bluff, and were well paid for their trip, for the game was probably the best witnessed on a local diamond this season.—Pensacola Journal.

One night last week some unknown fiend entered the mill of the Geo. E. Wood Lumber Co. at Caryville and deliberately cut the large rubber belt used on the large wheel which runs all the machinery used in sawing. The belt is said to cost about \$300 and is an all-important appendage. A reward of \$50 has been offered by the company for evidence to convict the guilty party.

An emergency home has been started in Tampa, where any woman, girl or child can now find shelter and refuge. This noble work is being done by the Salvation Army. On Wednesday that organization leased the large two-story building at 1312 Tampa street, which will be fitted up immediately. At this home the unfortunate will have a place to eat and sleep, and will be amid more refined surroundings until they can secure employment.

Operations by the brick paving contractors now working on East Gadsden street are enough to interest scores of people who have a mechanical turn of mind at present. The machine which is especially used to cut the street to the desired slope is now being operated on Gadsden street, near Eighth avenue, and as it whizzes along under a full head of steam it never fails to attract attention from anyone in the neighborhood.—Pensacola Journal.

Two storms swept over the community of Byrd the past week. Hazel Flake received a shock that caused considerable excitement for awhile, but has fully recovered. The wind did some damage. In a few fields it is estimated that one-fourth of the corn was blown down. A number of trees have been blown down or torn to pieces by the lighting. It is said that lightning seldom strikes a cypress

tree; however, an extra large one that stands near the bridge was not spared this time.

The First National Bank of DeLand will be a new and important institution at that place within a few months, with a capitalization of \$50,000. All the stock was subscribed for in less than a week by prominent citizens of DeLand and the St. Johns river section of Volusia, no one permitted to subscribe for more than \$1,000 worth of stock, except Mr. W. E. Sullivan, a banker from Williamstown, Ky., who went there very highly recommended, and who has made the First National of DeLand now a reality. He is down for \$10,000 worth of the stock.

Out-door work generally in Sanford has been held up on account of continued and heavy rains of the past seven days. The street gang employed in grading and laying brick from First to Second streets, on Magnolia avenue, had to give it up and get under shelter. Out in the farming district all work has been obstructed and much entirely stopped, so saturated is the earth with water. Grubbing and clearing up land, ditching, laying tile, etc., have been suspended for the time and yet appearances indicate more rain to come; but better now than later. The St. Johns river, Sanford's old friend and stand-by, is getting the benefit. Lake Monroe, showing the rise, is away out on the flats.

Information from Westville, near Pensacola, is to the effect that Deputy Sheriff D. S. Mood was attacked and assaulted on Thursday by a party of white and negro laborers after he had arrested and handcuffed several parties for whom he had warrants. The deputy went to the camps of the George E. Wood Lumber Company and, locating the men, placed them under arrest. All submitted to being handcuffed without protest and were going along peacefully with the deputy, when a sudden attack was made on the officer by a crowd. He was badly beaten, sticks and knives being used, it is claimed, and did not tarry when he had an opportunity of escaping. He left the prisoners, from whom the handcuffs were taken by their friends. Warrants have been issued for the arrest of a number of the men who, it is alleged, took part in the attack on the deputy.

For the past several days carpenters and bricklayers have been engaged in work on the Y. M. C. A. building in Tampa, which is now well under way. The foundation has been standing on the ground for some months, but work was discontinued after that had been completed on account of lack of funds. These were secured in abundance, however, in the canvass recently held, and now the work will be completed without a hitch and with all possible speed, the contract calling for completion on or before June 12, 1910. Frisbie & McGucken are the contractors. On account of the fact that funds were so generously subscribed at the recent canvass, arrangements were made for new plans, covering the entire lot, instead of only a portion of it, as at first planned. The building will be five stories high, and the enlargement of the plans will make it the largest structure in the city. Many advantages are gained through the change in plans, as additional class rooms and dormitory rooms will be provided for. The gymnasium instead of being 60 feet in length, will be 102 feet long.

The big fishing smack James Potter, Captain Rotando, sailing in the Sarasota fleet was overhauled and near

ly destroyed by a monster waterspout some twelve miles south of Egmont Key last Thursday. Prompt action on the part of Captain Rotando as the waterspout bore down on the schooner, saved the vessel from total destruction. He secured his revolver and began firing at the base of the spout, and so broke it when it was but twenty feet from the stern of the Potter. The vessel had just begun to answer the strong suction of the spout when the shots broke it. Captain Rotando declares that the spout was higher than the vessel's mast. It was made up quickly and swept down on them in a few minutes. No damage was done the vessel, but in a minute or so more, if the shot had not broken its base, the spout would have engulfed the schooner. The most notable instance of a waterspout bearing down upon a craft in this vicinity occurred about fifteen years ago, when the steamer Ella Knight, Capt. James McKay, was partly wrecked at the cattle dock near Balast Point. The Ella Knight was tied up at the dock, bow inshore, and the waterspout struck her stern, doing considerable damage.—Tampa Times.

Notice has been received at the postoffice from the Postoffice Department at Washington that a new two-cent stamp is now being prepared which will be ready for issue and placed on sale about the latter part of September. The new stamp is designed to commemorate the discovery of the Hudson river by Henry Hudson, 1609, and of the introduction of steam navigation on its waters by Robert Fulton, in 1807. It is oblong in shape, about 7-8 by 13-8 inches in size, and has a border bearing at the top the inscription "Hudson-Fulton Celebration," with the dates "1609" and "1807" underneath on either side. Below this inscription, in a curved line, are the words "U. S. Postage." At the bottom on each side is a prominent Arabic numeral "2," with "Two Cents" in a panel between the figures. In the center is an engraving of the palisades of the Hudson river in the background, with the Half Moon sailing up the river and the Clermont steaming in the opposite direction. In the foreground is an Indian in a canoe, and in the distance, barely discernable, is a canoe containing four other Indians. The canoes symbolize the first means of navigating the river. The stamp will be printed in the same color as the regular two-cent stamp.—Tampa Times.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WHO KNOWS HOW TO WEAR HOOPSKIRTS?

THIS PROBLEM NOW WORRYING THEATRICAL PEOPLE.

Henry B. Harris Has Trouble Rehearsing the Cast of "The Noble Spaniard."

NEW YORK, Aug. 28.—Henry B. Harris never had so much trouble in his life as he did yesterday at a dress rehearsal of "The Noble Spaniard," in which Robert Edeson will star this coming season, says The Morning Telegraph. In fact, the entire morning was taken up in getting the women of the company accustomed to wearing their clothes. The afternoon rehearsal was called off and the women were ordered to take their costumes home with them and practice all afternoon so as to be ready for rehearsal today.

The trouble is the women all wear hoopskirts in the play. Not the modest affairs which were the rage a dozen years ago, but the old-fashioned, genuine hoopskirts of the days of our mothers and grandmothers. Every woman in the company takes up at least eight feet of floor space.

There is Miss Gertrude Coghlan, Desiree Lazard, Cordelia Macdonald, Ella Hugh Wood and Ann Murdock. When they all get on the stage at once it looks like a baloon carnival. These ladies, when in full regalia, spread out about forty feet long and eight feet wide.

Modern Love Makers Blocked.

But the women are not the only ones having their troubles. Robert Edeson is also bothered. He is compelled to make love to Miss Coghlan, which would seem to be a most pleasant undertaking on ordinary occasions. But just imagine trying to make love to a girl who has a wire fence all around her and you cannot get nearer than four feet in any direction.

The ladies found their first trouble yesterday morning when they tried to sit down. Our grandmothers used to have that reduced to a science. It requires care to sit down when you have hoopskirts on. Unless you have the knack something may happen.

Sitting down with hoopskirts on requires a peculiar little flip of the skirts that places all that exaggeration properly about one's feet as they nestle to the chair. But the women of this Directorate age haven't got the knack of it. So the young women who will present "The Noble Spaniard" found themselves somewhat embarrassed yesterday morning when they found that when they sat down the hoopskirts shot up.

Poor Mr. Edeson was almost in despair. Every time he wanted to hold hands with Miss Coghlan he had to reach out to her at arm's length. If he tried to get up close to whisper sweet nothings in her ear he had to get his feet under the hoops and kick.

Easy to Learn to Bow.

Now Mr. Harris knows that our grandfathers made love to our grandmothers fifty years ago when hoops were all the style. They must have had some better way of getting close up beside their loved ones on the hair-cloth sofas than Mr. Edeson has today. But what the secret is, not a soul in the whole company knows.

The ladies have learned how to bow. That came easy after the first couple of failures, which made the stage look as if the family wash was out on the line. They learned quickly that our grandmothers did not bow. They stooped.

So Mr. Harris adjourned the rehearsal yesterday afternoon and sent hurry orders out for some belle of ante-bellum days to be hunted up. She is to be asked some very plain questions.

Cured Hay Fever and Summer Cold

A. S. Nussbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

NEWS OF CITY AND COUNTY CONDENSED

W. R. Stewart, a leading citizen of Campville, was among the East Enders visiting the county capital yesterday.

Dr. B. M. Tison left yesterday for a short visit to Worthington Springs. He will be absent until about the middle of the week.

J. E. Pultz, cashier of the Coast Line, returned last night from his annual vacation, which he spent at principal points in the East.

A. B. Oliver, of the firm of Oliver & Kite, will leave today for the markets to purchase another carload of mules for their stables.

H. Herzog, who has been absent for the past few months in Philadelphia and other points spending his annual vacation, returned to his home here yesterday.

Our shoe department was never better and we are now showing a few advanced styles in fall goods. Some extra close prices on summer goods to close them out. L. C. Smith.

G. L. Thompson, the machine agent, returned yesterday from Alachua, where he has been for the past week. Now that cotton is selling he is finding it especially profitable in that section.

Mrs. R. L. Barton and children, who have been spending the past several days visiting the former's relatives at Hawthorn, passed through the city yesterday en route to their home at Rocky Point.

People with chronic bronchitis, asthma and lung trouble, will find great relief and comfort in Foley's Honey and Tar, and can avoid suffering by commencing to take it at once. J. W. McCollum & Co.

All Rebekahs who desire to contribute fruit or flowers to the sick at the Sanitarium can leave same at the office of Dr. J. H. Hodges, during the forenoon and the contributions will be delivered from there.

W. E. Brown, one of the leading truckers of Archer, was a visitor here yesterday. For a number of years he was engaged in a similar business here, but decided that his chances were better in that section.

For indigestion and all stomach trouble take Foley's Orino Laxative, as it stimulates the stomach and liver and regulates the bowels and will positively cure habitual constipation. J. W. McCollum & Co.

Joe McKinney, a successful planter of the Wacahoota section, was in the city yesterday. He was for a long while engaged in business in Gainesville and has a large number of friends here who are always pleased to meet him.

If your liver is sluggish and out of tone, and you feel dull, bilious, constipated, take a dose of Chamberlain's Stomach and Liver Tablets tonight before retiring and you will feel all right in the morning. Sold by all druggists.

L. H. Hall, one of the prominent East Enders, was a visitor to the city yesterday. He says all the planters about Orange Heights are busy getting out their cotton and it has already had the tendency to brighten up business considerably.

B. M. Tench, of the firm of Hyde & Tench, has returned from his annual vacation, which was spent in Chicago, Cincinnati, Baltimore and other points. While away he was also the guest of Col. Nichols at Green Harbor, Mass., for a few days.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by all druggists.

Mrs. R. F. Jordan and children, who have been absent for the past several weeks in Georgia, returned home yesterday. They were accompanied as far as Alachua by Mr. and Mrs. James Chesnut of that place, who have been spending the summer in Georgia.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in the treatment of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened it is pleasant to take. Sold by all druggists.

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound

Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — Mrs. EMMA LIME, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

PETITION FOR ELECTION.

To the Honorable Board of Public Instruction, Gainesville, Alachua County, Florida—We, the undersigned voters and tax-payers residing in the hereinafter described territory, petition your Honorable Body to advertise the following territory and call an election for the purpose of creating a Special Tax School District, naming the millage, and electing three trustees. The territory described as follows:

Beginning at the NE. corner of Sec. 2, Tp. 10, R. 19, running south three miles, thence west 1 mile, thence north 1, thence west 4 miles, thence north 2 miles, thence east 5 miles to beginning point, and embracing all of Sections 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, and 14, Tp. 10, R. 19. (Signed) D. L. Williams, E. M. Pepper, E. M. Beville, J. F. Aiken.

Note—the above petition will be acted upon by the Board of Public Instruction of Alachua county, Florida, at a meeting to be held on September 1, 1909.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd of Henrietta, Ky. In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all druggists.

Notice.

To Patrons of Union Academy, Gainesville, Florida—You are hereby called to assemble at Union Academy school building, instead of at Mt. Pleasant church hall, as was announced in previous notice.

R. B. AYER, CHM.
D. W. ROWE, Secy.

Be sure and take a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with you when starting on your trip this summer. It cannot be obtained on board the trains or steamers. Changes of water and climate often cause sudden attacks of cholera, and it is best to be prepared. Sold by all druggists.

She Was the Champion.

A colored woman of generous proportions was on the witness stand, and she made such a good witness for the plaintiff that the attorney for the defense planned to throw "cold water" on what she said by finding fault with her character.

"Let me see—you have been arrested, haven't you?" the attorney asked in cross examination.

"Now, look a-beeh," said the witness, getting angry, "do you think I'm going to tell you all my private business? I guess not."

"I have the right to know, and you must tell me," the lawyer persisted, and the judge instructed the witness that she should have to answer.

"I's 'rested for likin' my husband," she said, her eyes flashing.

"That so?" said the attorney, with great satisfaction. "What is your husband's name?" She told him. "What is his business?"

"He's a prizefighter," she said, and the cross examination abruptly ended amid general merriment.—Indianapolis News.

Going Some.

"Yes, sir," said old man Braggard, "as soon as I see them birds I went into the house and took down the old blunderbuss and pegged at 'em, and, by gorry, I brought down thirty birds to one shot. Can ye beat that?"

"Ya-as," drawled Uncle Si Peavey. "You know Bill Wiggins' frog pond?"

"Yes," said old man Braggard. "What of it?"

"Waal, I went down there the other night after sundown to shoot a couple of bullfrogs with my old shotgun," said Uncle Si. "There was 5,000 of 'em settled on them there lily pads, and I just lifted that gun to my shoulder and let her go."

"S'pose you did," said old man Braggard. "How does that affect my bird story?"

"Beats it all hollow," retorted Uncle Si. "The minute my gun went off them hull durned 5,000 bullfrogs croaked."—Harper's Weekly.

Take Life Like a Man.

It is a pitiable thing to see a young man whining over his lot in life and excusing indifference and inaction because of hard luck or some cruel fate which has put stumbling blocks in his way.

No matter what your environment or what you may be called upon to go through, face life like a man, without whining. Turn your face to the sun, not back to the shadow, and beat the world in the face without whining. Make the best of your situation. See the beauties in it and not the ugly features. This is the way to happiness in a difficult environment.—Success Magazine.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
